

Eco News 2018

In Eco this term we have been very busy. We dug over our vegetable patch and planted some onions, potatoes and beans and weeded the strawberry bed. The rhubarb is out of control! We planted sunflowers and lots of other flowers too.

Our school was lucky enough to have been awarded £2000 from Greenergy which we have spent on a new higgledy piggledy shed on the field. This will be used as a reflective/learning area for all classes as and when they wish to use it. It is used regularly at lunchtimes when adults read stories to the children. We also plan to hold Eco meetings in here.

This term we hope to litter pick in the community and deliver a worship about Fairtrade Coffee Farmers. We will also take that opportunity to share the things we have been learning about with the rest of the school.

We enjoyed decorating plant pots recently and hope to do some more den building in the nature garden now that the weather is glorious!

Last of all but by no means least, Eco club would like to take this opportunity to thank Mrs. Watson for giving up her spare time to help run our club.

We will keep you updated on a termly basis to let you know what exciting, interesting and informative things we have been learning about!
